ACTIONS TO APPLY**

\*Based on the training evaluation data collected from 1,977 trainings across the 10 Regional Public Health Training Centers on trainings conducted between July 2018 and June 2020 using these four Public Health Learning Network Common Evaluation Metrics:

1. My understanding of the subject matter improved as a result of having participated in this training.
2. I have identified actions I will take to apply information I learned from this training in my work.
3. The information was presented in ways I could clearly understand.
4. I was satisfied with this training overall.
