

Our Network by the Numbers 2017-2018

1 National Coordinating Center

10 Regional Public Health Training Centers

80 Local education & training site partners

More than 50 staff members, including 10 Instructional Designers, and connections to thousands of subject-matter experts offering high-quality training for the nation's 500,000 public health workers

A broad spectrum of professionals access and adapt our training courses for their needs. In addition to public health, public health learners work in the fields of:

COMMUNITY HEALTH

MEDICINE

NURSING

DENTISTRY

BEHAVIORAL HEALTH

HEALTH EDUCATION

EMERGENCY PREPAREDNESS & MANAGEMENT

and more!

134,036
45,268
21,750
24,813

We develop hundreds of new trainings each year. Last year, there were **134,036** instances of professionals attending trainings.

More than 45,268 professionals working in medically underserved areas were trained.

More than 21,750 professionals working in rural areas were trained.

More than 24,813 professionals working in primary care settings were trained.

We offered 739 Continuing Education courses last year.
